Refer Department's 441 to Bonn, August 4, 1953, Moscow's 164, August 5, 1953.

Department's position in today's meeting and PSB action was that no further note to Moscow desirable at this time but favorable consideration given to proposal in next to last paragraph DEPTTEL 441, August 4 with regard to scattered depots of food. Approach on this subject and on access and travel restrictions, possibly at High Commissioner level Berlin will be discussed further here.

Bonn's 516, August 5 arrived after meeting but will be helpful in final decision.
